GROOVE OPTIONS

Standard Groove Options are Square and V-Groove. We can also provide Beaded Groove (Not pictured here). Standard Groove width is 1/4" with 3/16" Depth, but groove width and depth can be customized.

RAISED MOULDING

We have 3 types of standard raised moulding profiles shown here. We can also apply beveled moulding on panels and we can provide custom moulding options for a tooling fee.

REVEAL AND GROOVE OPTIONS

These cross section drawings depict how each of the modern styles are manufactured, and the options for each style. Please Contact Us with any customization questions.
